S E L E C T E D W O R K

INTERACTIVE WEB-BASED GAMES

Multimedia design programme | IBA, Kolding, Denmark.

Designed and developed two interactive web-based games, where I took part-responsibility for the development, design and full resposibility of coding.

- Created a branching narrative game exploring financial decision-making, where users' chioces influenced the outcome.

- Developed an educational game in Danish to help children and parents understand online safety, combining web-based learning with interactive application of the knowledge (LINK).
- Implemented the experiences using HTML, CSS and JavaScript.
- Created and refined prototypes before publishing by usability testing.

BRAND IDENTITY & COMMUNCATION STRATEGY

Real life project | Real Relief – Menstrual Health Day (LINK)

Contributed to a rebranding project and communcation strategy focused on menstrual health.

- Rebranding included a softer, more creative visual direction throught colour, typography and consistent imagery.
- Delevoped a social media strategy covering content formats, Instagram Stories and audience engagement.
- Furtheremore we also recommended influencer collaborations as a way to increase awareness, exten the campaign's reach and engage a broader audience.
